allows European management computer license, it is a program developed by the Council of European Professional Informatics Societies. Currently 262 students are enrolled from the educational system and from other areas, the college is open centre.

CISCO Program

students have access to the educational program CISCO Netacad, the most modernized and comprehensive program of e-learning in technology and communication that exists in the world. The program combines theoretical notions acquired through individual study and presented at courses, with lab activities in which students work on real equipment. CREDIS Academy is the largest Cisco Academy in Romania.

EUCIP Program (European Certification of Informatics Professionals)

European Certification of Informatics Professionals is a recognized certification program launched by the European CEPIS - Council of European Professional Informatics Societies, a non-profit organization supported by the European Union which aims to develop and improve professional standards in information and communications technology through Europe.

- **Junior Achievement Program**

Junior Achievement Romania is a non-profit organization that was founded in 1993 and is part of Junior Achievement Worldwide®, USA and Junior Achievement-Young Enterprise Europe.

It develops skills through youth programs:

Economic Education

Entrepreneurial Education

Financial Education

Education for professional guidance

Education for social responsibility

VOLUNTEERING PROGRAMS

" The National Strategy for Community Action "

The major objectives of the program are:

- to develop a network of active volunteers at each level of local communities
 - to engage people in problem solving
- to identify people in need of support and solve their problems
 - to identify resources in local communities.

"Education for family life"
